

GREEN INFRASTRUCTURE

is coming to your municipality!

Learn more about how Stroudsburg, East Stroudsburg and Stroud Township can create places and practices to protect your environment and drinking water.

Residents, your input is wanted and welcome!

We'll hold three workshops to discuss the new Green Infrastructure Project, as well as how to build a rain garden, install a rain barrel and "live green" to keep your drinking water and streams clean. You could even win a rain barrel!

WORKSHOPS will be held 7 p.m.:

Wednesday, Sept. 14: Stroud Township municipal building,
1211 N. Fifth St., Stroudsburg

Tuesday, Sept. 20: Historic Dansbury Depot,
5 S. Kistler St., East Stroudsburg

Wednesday, Sept. 28: Stroudsburg municipal building,
700 Sarah St., Stroudsburg
